TNCC Trauma Nursing

Core Course

March 4-5, 2010

May 20-21, 2010

August 5-6, 2010

November 4-5, 2010

Recertification Course

May 7, 2010

September 3, 2010

Course Description:

The Trauma Nursing Core Course (TNCC) is designed to provide core level trauma knowledge and psychomotor skills associated with the delivery of professional nursing care to the trauma patient. The content will be provided through a series of lectures and psychomotor skill stations.

Verification/Certification:

The National Emergency Nurses Association will issue a card verifying successful completion of the TNCC provider course. TNCC verification is good for 4 years. Successful completion includes a score of 80% or higher on the written exam and passing 2 skill stations.

Intended Audience:

The course is intended for registered nurses (RN) with at least 6 months of clinical nursing experience in an Emergency or Critical Care Setting.

Americans with Disabilities Act:

If you require special materials or services as covered under the Americans with Disabilities Act, please advise the course coordinator at least 30 days in advance of the course. Notice must be received in writing.

Photographs:

Registering for this class gives the ENA permission to take photographs. These photos will be used for ENA educational purposes only.

Course Objectives

1. Describe the characteristics of the life-threatening illness and injury in children.
2. Identify the anatomic & physiological characteristics of children as a basis for signs & symptoms.
3. Identify the most frequent causes of illness or injury in children.
4. Describe the assessment of pediatric patients with illness or injury.
5. Plan the specific interventions needed to manage the pediatric patient with illness or injury.
6. Evaluate the effectiveness of nursing interventions related to patient outcomes.
7. Identify health promotion strategies related to the pediatric population.

Course Content:
