Emergency Nursing Pediatric Course

March 18-19, 2010
June 3-4, 2010
October 7-8, 2010
December 2-3, 2010

Course Description:

The Emergency Nursing Pediatric Course (ENPC) is designed to provide core level pediatric knowledge and psychomotor skills associated with the delivery of professional nursing care to the pediatric patient. The content will be provided through a series of lectures and psychomotor skill stations.

Photographs:

Registering for this class gives the ENA permission to take photographs. These photos will be used for ENA educational purposes only.

Verification/Certification:

The National Emergency Nurses Association will issue a card verifying successful completion of the ENPC provider course. ENPC verification is good for 4 years. Successful completion includes a score of 80% or higher on the written exam and passing all skill stations.

Intended Audience:

The course is intended for registered nurses (RN) with at least 6 months of clinical nursing experience in an Emergency or Critical Care Setting.

Americans with Disabilities Act:

If you require special materials or services as covered under the Americans with Disabilities Act, please advise the course coordinator at least 30 days in advance of the course. Notice must be received in writing.

Course Objectives

1. Describe the characteristics of the life-threatening illness and injury in children.
2. Identify the anatomic & physiological characteristics of children as a basis for signs & symptoms.
3. Identify the most frequent causes of illness or injury in children.
4. Describe the assessment of pediatric patients with illness or injury.
5. Plan the specific interventions needed to manage the pediatric patient with illness or injury.
6. Evaluate the effectiveness of nursing interventions related to patient outcomes.
7. Identify health promotion strategies related to the pediatric population.
