About the ENA:

The ENA, which has more than 40,000 members worldwide, is the only professional nursing association dedicated to defining the future of emergency nursing and emergency care through advocacy, expertise, innovation, and leadership.

Founded in 1970, ENA develops and disseminates education and practice standards and guidelines, and affords consultation to both private and public entities regarding emergency nurses and their practice. Additional information is available at ENA's website, www.ena.org or on Twitter:

@ENAorg.

If you require special materials or services as covered under the Americans with Disabilities Act, please advise the course coordinator at least 30 days in advance of the course.

Registering for this class gives the ENA permission to take photographs. These photos will be used for ENA educational purposes only.

Why You Need ENPC?

ENPC is designed to help you learn core-level pediatric knowledge and the psychomotor skills needed to positively affect patient outcomes in emergency departments. It presents a systemic assessment model; integrates associated anatomy, physiology, and pathophysiology and identifies appropriate interventions.

Did You Know ENPC...

- Meets 12 of the 13 clinical and professional competencies as specified in the Joint Policy Statement-Guidelines for Care of Children in the Emergency Department Appendix*
- Offers a four year verification of your knowledge and skills upon successful completion
- Utilizes evidence-based information for nurses providing emergency pediatric care
- Offers the opportunity to earn 15.58 contact hours
- 23 chapter comprehensive manual that includes special emphasis on age and developmental stages.

Take the Course Today!

Verification/Certification:

The National Emergency Nurses Association will issue a card verifying successful completion of the ENPC provider course. ENPC verification is good for 4 years.

Successful completion includes a score of 80% or higher on the written exam and passing all skill stations.

Intended Audience:

The course is intended for registered nurses (RN) with at least 6 months of clinical nursing experience in an Emergency or Critical Care Setting.
