

An **ENP** Course

## INTRODUCTION

ENPC, the premier evidence based emergency nursing pediatric education course, developed by pediatric emergency nurses, provides a standardized body of pediatric emergency nursing knowledge to improve the care of pediatric patients. It provides early intervention and expert care from birth to adolescence.

ENPC uses a systematic approach to the initial assessment with the Pediatric Assessment Triangle and A-I mnemonic tools. This 1.5 day hands-on intensive course combines classroom learning with interactive scenarios.

Verification of successful course completion is based on passing both the written exam and skill-based hands-on assessment.

## Registration

Registration will be limited. Course fee includes course materials. In accordance with the Americans with Disabilities Act, please advise the course director if you have any disability that requires special materials and/or services so appropriate personnel can be advised.

**Course cancellation policy** Course registrants should contact the course coordinator by e-mail or phone as early as possible when they find they cannot attend a course, preferably two weeks in advance.

If you are unable to attend a course and do not notify the course coordinator **prior to the start** of the course, **no refund** will be given and your registration will not be transferred to another course.

The Emergency Nurses Association is accredited as a provider of continuing education by the American Nurses Credentialing Center's Commission on Accreditation.
