General Information

Onsite Event Location:

French Lick Springs Resort
Second floor of Hotel Meeting and Event Center
8670 West State Road 56
French Lick, IN 47432

Additional Virtual Information:

<https://www.indianaena.org/iemsa-iena-2023>

Conference Theme:

- *Indiana Emergency Medical Services Association and the Indiana Emergency Nurses Association 2023 "Inspire: Stronger Together"*

Conference Outcomes:

- At the end of the conference, 100% of attendees will self-report a knowledge increase in at least one clinical area identified in the practice gap.

Acknowledgement:

Thank you to the following members of the content planning committee for the development of this conference. No planning committee members have expressed a conflict of interest to disclose.

- Bradley M. Rund, MSN, FNP-BC, CEN, CPEN, CFRN, NR-P, CCP-C, CMLI
- Matthew S. Howard, DNP, RN, CEN, TCRN, CPEN, CPN, FAEN
- Thomas Fentress, MBA, NRP, PI, CFI

Thank you to the following members of the overall conference planning committee for the development of this conference.

Mixer Information

November 30, 2023

- Beginning at 1800 (6:00 p.m.) at the American Legion Post 76, located at 8607 W Main St, French Lick, IN 47432, entertainment will begin at 1830 (6:30 PM).
- The event is a short 0.2 miles or 5 minutes walking distance from the conference hotel. Shuttles will be available at the French Lick Springs Hotel entrance to transport participants to the event.
- Conference badges must be presented at the door to gain entrance. This event is free with your registration and includes a full meal and 2 (two) drink tickets. Additional tickets may be purchased at the conference registration desk.
- The evening entertainment will begin with a DJ and Karaoke followed by live music from [Top Tier](#), an 80-90's cover band out of Nashville, TN.

Fall recovery & evacuation in the most challenging environments

Visit us to learn how fall recovery can be accomplished without manual lifting using the HoverMatt & HoverJack.

www.HoverMatt.com

Don't wait for a medication error to be your wake-up call

- Eliminate manual entry errors
- Safeguard your patients
- Standardize documentation of weight measurements
- Make patient information accessible in one central location
- Streamline your workflow

Educational Information

Notice of Disclosures

Criteria for Awarding Contact Hours:

- Sign in/register on the attendance form
- Credit awarded commensurate with participation
- Completion and submission of the electronic evaluation form for each session attended

Conflict of Interest or Relevant Financial Relationships:

- None of the planners or any individual in a position to control the content of this educational activity have disclosed any conflict of interest or relevant financial relationship(s) with any ineligible companies.
- Indiana ENA has selected all faculty participating in this activity through either a blinded peer review process or session nomination/request. It is our process that all NCPD planning committee members, speakers/faculty, authors, editors, and officials with commercial interests upon nomination or invitation of participation.

Commercial Support:

- Several companies have provided financial support for the educational conference and will function as exhibitors during the conference. The event sponsors listed above have had no access to or input in the conference's educational content in any way.

Continuing Professional Development

- To receive Nursing Continuing Professional Development hours, or contact hours, for this educational activity, attendees must meet the criteria listed above. Contact hours for both nurses and EMS providers can be obtained online through our Conference Evaluation website.

The Conference Evaluation will be available beginning on **29 November 2023** through **January 17, 2024**. You must obtain your conference contact hours before this time.

The Conference Evaluation website can be found at <https://www.indianaena.org/iemsa-iena-2023/evaluation>. Once you begin the form, you can save your work and return to the form at any time before **January 17, 2024**. If you have any questions, or issues with the form, please contact the Indiana Emergency Nurses Association at indianaena@indianaena.org.

This continuing nursing education activity was approved by the Emergency Nurse Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.

All sessions are first come first served. If there is a session you would like to attend, be sure to be seated in the room early to confirm you will have a seat available.

Schedule – Individual Session Overview

November 30, 2023 - Thursday

Session A: 1045 - 1130

A1: Oncologic Emergencies: When Cancer & The ED Collide	Reagan Room
A2: Oh, That Little Thing? It’s Just My Ventricular Assist Device!	Nixon Room
A3: Examining the Intersection of Injured Trauma Patients and Trauma Quality Improvement: Case Studies and Insights	Johnson Room
A4: Changing the Game with Game-Based Learning: Escape Rooms in Education	Eisenhower Room
A5: The Greatest Spectacle in Nursing: Mass Gathering Emergency Medicine at the Indianapolis 500	Ford Room
A6: Escape the Trauma Room	Truman Room

Session B: 1145 - 1230

B1: Stroke in the Rural Setting	Reagan Room
B2: Getting Back on Track with Sepsis post-Covid	Nixon Room
B3: Hidden Dangers of Sleep Deprivation	Johnson Room
B4: Adult Learners: They Aren’t Just Big Kids	Eisenhower Room
B5: Tenecteplase: The New(-ish) Kid on the Block for Acute Ischemic Stroke	Ford Room
B6: Escape the Trauma Room	Truman Room

Session C: 1345 - 1430

C1: Organ and Tissue Donation: Through the Eyes of an ED Team Member	Reagan Room
C2: Medical Myths in EMS	Nixon Room
C3: Applying Complex Theory to Adopting Rapid Medical Evaluation (RME) Model in Triage	Johnson Room
C4: Pediatric Emergency Care Coordinators (PECC) in the Emergency Department	Eisenhower Room
C5: We'll See You in Triage ...	Ford Room
C6: Escape the Trauma Room	Truman Room
C7: Advocating for Healthcare Beyond the Bedside	Hoosier A-C Room

Session D: 1445 - 1530

D1: It's Not Me, It's You: Managing Difficult Deliveries	Reagan Room
D2: Take the "E" Out of EMS: Adapting Your EMS Resource to Meet the True Needs of Your Community	Nixon Room
D3: The Resilient Caregiver: The Impact of Vicarious Trauma on Healthcare Providers and How to Build Resilience	Johnson Room
D4: Intelligent Disobedience: A Leadership Perspective	Eisenhower Room
D5: Comprehensive Trauma Care: Insights from Real Case Studies of Injured Trauma Patients	Ford Room
D6: Escape the Trauma Room	Truman Room

Session E: 1600 - 1645

E1: Smoke Signals: Understanding Capnography	Reagan Room
E2: The Fire's Out, Now What? Saving Lives Through Burn Education	Nixon Room
E3: Recipe for Clinical Improvement: Reviewing the Key Concepts of Research, Evidence-Based Practice, and Quality Improvement	Johnson Room
E4: Crew Resource Management	Eisenhower Room
E5: Are You Ready for A Disaster in Your ED: What Every RN Should Know About Emergency Preparedness	Ford Room
E6: Escape the Trauma Room	Truman Room

Session F: 1700 - 1745

F1: I Had No Idea!!! Introducing Nursing Students to the World of EMS	Reagan Room
F2: Five Hats Every Leader Must Wear	Nixon Room
F3: What the Research Says	Johnson Room
F4: Policy Roundtable	Hoosier A-C Room
F5: New Grads in a New Era: How to Orient New Graduate Nurses in Emergency Nursing	Ford Room

December 1, 2023 - Friday

Session G: 1045 - 1130

G1: Unusual Presentation	Reagan Room
G2: Medical Aspects of Strangulation: What EMS and Nurses need to know	Nixon Room
G3: Staff Education and Engagement on Shift	Johnson Room
G4: Paramedicine Specialty Certifications A Pathway to Career Advancement	Eisenhower Room
G5: Trauma Chronicles: Leveraging Case Studies to Elevate Patient Quality	Ford Room
G6: Escape the Trauma Room	Truman Room

Session H: 1145 - 1230

H1: Inhalation Injury in the Burn Patient	Reagan Room
H2: A Unique Perspective on Dealing with Death	Nixon Room
H3: Supraglottic Airways	Johnson Room
H4: Care Enough for Ourselves: Wellbeing for Healthcare Workers	Eisenhower Room
H5: Pain Management in Pediatric Patients	Ford Room
H6: Escape the Trauma Room	Truman Room

Session I: 1325 - 1410

I1: Cardiac Emergencies or Up AMI Creek with Two Paddles	Reagan Room
I2: International Medical Volunteering, From Crazy to Amazing, in less than 45 minutes	Nixon Room
I3: The Violence is Real	Johnson Room
I4: The Ups and Downs of Transport Medicine	Eisenhower Room
I5: MARCH To a New Beat: Initial Steps of Trauma Resuscitation	Ford Room
I6: Escape the Trauma Room	Truman Room

Session J: 1425 - 1510

J1: Public Access Naloxone: Saving Lives or Rewarding Dangerous Behavior?	Reagan Room
J2: Baby Free, Delivery Extra	Nixon Room
J3: It's All About Them Briefs', 'Bout Them Briefs, 'Bout Them Briefs, No Trouble	Johnson Room
J4: Designing and Implementing Church Emergency Response Teams	Eisenhower Room
J5: Wait – Kids Aren't Just Tiny Adults? Differences in Neonatal, Pediatric, and Adult Sepsis Presentation and Treatment	Ford Room
J6: Escape the Trauma Room	Truman Room

Session K: 1530 - 1615

K1: You're Getting A Call on the Radio for 8 Gunshot Victims That Turns Into 18	Reagan Room
K2: Aspire to Lead - A Guide to Servant Leadership	Nixon Room
K3: Radical Collaboration: How Diversified Deployment of EMS Resources Can Revolutionize Your Community's Healthcare Ecosystem	Johnson Room
K4: 5 S's for Sim-ply Leveling Up EMS Experiential Learning	Eisenhower Room

Schedule – Detailed Schedule

November 29, 2023 - Wednesday

Pre-Conference Session: 1300 - 1700

Mechanical Ventilation Masterclass for ED & EMS Clinicians

Reagan Room

Jacob A. Miller, DNP, MBA, ACNP, ENP-C, CNS, NRP, FAEN

The RT is gone; the vent is your responsibility—now what? This half-day workshop will provide an introduction to basic and advanced mechanical ventilation concepts, review common ventilator terminology (so you can speak the same language with the RT when they do show up!), present strategies to facilitate patient-ventilator synchrony, and guide you through troubleshooting common ventilator alarms. The material will be structured and presented so anyone from a new grad to an experienced clinician can take something home from this course.

November 30, 2023 - Thursday

Plenary Session 1: 0900 - 1015

Nice, Nasty, and Nutty Nurses: Lessons Learned from Cherry, Rachet, Hotlips, and Flo

Teri Campbell, MSN, RN, CEN, CFRN, PHRN, FAEN, FASTN

Print, film, and television has a history of representing nurses in a less than favorable light. As a profession, we have been immortalized as either villains, naïve, ball-busters, angelic, flawed, or saints.... Let's face it: nurses are ALL of those things wrapped up in a highly competent, compassionate, and kick-a@\$ package! Role models surround us in both media and film, as well as in real life.

Session A: 1045 - 1130

A1: Oncologic Emergencies: When Cancer and The ED Collide

Reagan Room

Sorayah Bourenane, MSN, RN, ONC, CEN, CNL

Cancer is a scary diagnosis. Imagine having to go to the Emergency Department as well! Learn how to provide better care for patients with cancer in this lecture.

A2: Oh, That Little Thing? It's Just My Ventricular Assist Device!

Nixon Room

Michael Smith, EMT-P, CCEMT-P, EMSI

High-tech medical devices are now commonplace. This lecture will discuss home medical devices from Insulin pumps, G-tubes, home ventilators, IV pumps, ventricular assist devices, and artificial hearts.

A3: Examining the Intersection of Injured Trauma Patients and Trauma Quality Improvement: Case Studies and Insights

Johnson Room

Georgann Adams, MSN, RN, ACNS-BC, CCRN, TCRN, Maria Thurston, MSN, RN, AGCNS-BC, CCRN, TCRN, & Lori Kelsheimer, BSN, RN, CEN

Uncovering the connection between injured trauma patients and trauma quality improvement using case studies and practical insights.

Session A: 1045 - 1130

A4: Changing the Game with Game-Based Learning: Escape Rooms in Education **Eisenhower Room**
Catana Philipps, MSN, RN, CEN, TCRN

Learn how to escape boredom and think outside of the box to create a fun educational experience. This presentation will discuss the use of game-based learning and explain how a tabletop escape room can be used to meet learning outcomes.

A5: The Greatest Spectacle in Nursing: Mass Gathering Emergency Medicine at the Indianapolis 500 **Ford Room**

Natalie Calow, MSN, RN, CEN, AFN-C & Tracy Ballard, BSN, RN, NPD-BC, CEN, TCRN

The Indianapolis Motor Speedway is the largest single-day sporting event in the world. Explore what it takes to transform the infield track into the busiest ED in Indiana for one day out of the year.

A6: Escape the Trauma Room **Truman Room**
Lori Kelsheimer, BSN, RN, CEN & Katie Watson, BSN, RN

You and your team have been locked in the trauma room. You only have 30 minutes to breakout. Can you find the clues and solve the puzzles to Escape the Trauma Room?

Session B: 1145 - 1230

B1: Stroke in the Rural Setting **Reagan Room**
Michele Glidden, MSN, RN, CEN, SCRNP, ASC-BC

With the aging population in the rural areas of Indiana, this session will discuss treatment, transport, and destination options for patients who need emergent stroke treatment.

B2: Getting Back on Track with Sepsis Post-Covid **Nixon Room**
Dawn M Sullivan Wright, MSN, RN, ACNS-BC, CEN, TCRN, Starr Bacon, MSN, RN, & Stephanie Turi, MSN, RN, CNS

How do we turn it back on? Come learn efficient methods for swift septic shock identification and how to reduce patient mortality.

B3: Hidden Dangers of Sleep Deprivation **Johnson Room**
Kari Lanham, AS, EMT-P, NRP, PI

This presentation will bring awareness about the physiological and mental dangers associated with sleep deprivation and how it can affect both you, your co-workers, and your patients. We will discuss how sleep is regulated and that sleep is an active process. You will learn about the chronic and immediate affects of sleep deprivation, as well as some strategies to improve your sleep hygiene.

B4: Adult Learners: They Aren't Just Big Kids **Eisenhower Room**
Leah Tilden, EdD, AEMT

Just as we teach our students that pediatric patients are not small adults; it is important for educators to know that adult learners are not large children when it comes to learning.

Session B: 1145 - 1230

B5: Tenecteplase: The New(-ish) Kid on the Block for Acute Ischemic Stroke **Ford Room**
Lauren Beauchamp, PharmD, BCPS

This session will review the pathophysiology and treatment of acute ischemic stroke and focus specifically on the differences between alteplase and tenecteplase for fibrinolysis.

B6: Escape the Trauma Room **Truman Room**
Lori Kelsheimer, BSN, RN, CEN & Katie Watson, BSN, RN

You and your team have been locked in the trauma room. You only have 30 minutes to breakout. Can you find the clues and solve the puzzles to Escape the Trauma Room?

Session C: 1345 - 1430

C1: Organ and Tissue Donation- Through the Eyes of an ED Team Member **Reagan Room**
Christina Cannon & John Heflin, BSN, RN, CCRN, CPTC

In this session, you will hear an overview of the state of donation in the US and Indiana as well as learn what Indiana Donor Network and the Donor's hospitals critical role is in the donation process.

C2: Medical Myths in EMS **Nixon Room**
Leah Tilden, EdD, AEMT & Sara Walker, MS, NRP

Designed for all levels of EMS providers, this presentation reviews pervasive medical myths in EMS and what the current research says.

C3: Applying Complex Theory to Adopting Rapid Medical Evaluation (RME) Model in Triage **Johnson Room**
Zachary Hermann, MBA, MSN, RN, CEN, NREMT

Modifying traditional emergency department triage methods to improve patient throughput and outcomes.

C4: Pediatric Emergency Care Coordinators (PECC) in the Emergency Department **Eisenhower Room**
Natasha Thompson, DNP, APRN, FNP-C

Pediatric emergency care coordinators (PECCs) are crucial to ensuring quality care in the emergency department for children. Let's talk about PECCs.

C5: We'll See You in Triage... **Ford Room**
Ryan Williams, MBA, MSN, RN, CEN, CFRN, CHEP, EMT-P

This presentation will look at various aspects of triaging patients in both pre-hospital and emergency department settings. Triage can be a pain point for both EMS and emergency departments. At the same time, each has its processes of triaging patients in their respective practices; triage is also a merging point between the two when a patient arrives by EMS to the emergency department.

C6: Escape the Trauma Room **Truman Room**
Lori Kelsheimer, BSN, RN, CEN & Katie Watson, BSN, RN

You and your team have been locked in the trauma room. You only have 30 minutes to breakout. Can you find the clues and solve the puzzles to Escape the Trauma Room?

Session C: 1345 - 1430

C7: Advocating for Healthcare Beyond the Bedside

Hoosier A-C Room

Dawn M Sullivan Wright, MSN, RN, ACNS-BC, CEN, TCRN, Michelle Boyce, MSN, RN, ACNS-BC, NPd-BC, CEN, & Matthew S. Howard, DNP, RN, CEN, TCRN, CPEN, CPN, FAEN

Nurses and EMS personnel must advocate for healthcare policies at local, state, and federal levels to enhance quality, accessibility, and equity.

Session D: 1445 - 1530

D1: It's Not Me, It's You: Managing Difficult Deliveries

Reagan Room

Amanda Gill, MSN, RNC-OB

Shoulder dystocia and breech presentations are distressing for even the most experienced OB clinicians. Should this occur in the field or ED, it is up to you, not me, to provide specific maneuvers to get baby delivered quickly and safely. Are you prepared? In this presentation, participants will learn interventions through high-fidelity, hands-on demonstration and practice.

D2: Take the "E" Out of EMS: Adapting Your EMS Resource to Meet the True Needs of Your Community

Nixon Room

Cheyenne Wuebker, AS, EMT-B, CHW/CRS & Nathaniel Metz, EMT-P, CHW

Learning how to handle mental health and addiction patients in the prehospital setting and about the new 988 system and how to utilize it properly.

D3: The Resilient Caregiver: The Impact of Vicarious Trauma on Healthcare Providers and How to Build Resilience

Johnson Room

Thomas McDoor, BCC

As healthcare providers, we have all witnessed suffering, death, and trauma. Have you ever thought of a tragic situation with a patient days or even years later? Learn how to identify vicarious trauma and avoid negative coping leading to burnout.

D4: Intelligent Disobedience: A Leadership Perspective

Eisenhower Room

John Todaro, BA, RN, TNNT, CHSOS, NRP

Presentation will discuss the concept of intelligent disobedience. Discuss how it can have positive effects on an organization's creativity and productivity. Discuss how to an organization can embrace.

Session D: 1445 - 1530

D5: Comprehensive Trauma Care: Insights from Real Case Studies of Injured Trauma Patients **Ford Room**

Scott Isenberg, MSN, RN, CEN, TCRN

Gain valuable insights into trauma care through the analysis of real case studies of injured trauma patients. Acquire practical strategies for delivering effective and comprehensive care to optimize patient outcomes.

D6: Escape the Trauma Room **Truman Room**

Lori Kelsheimer, BSN, RN, CEN & Katie Watson, BSN, RN

You and your team have been locked in the trauma room. You only have 30 minutes to breakout. Can you find the clues and solve the puzzles to Escape the Trauma Room?

Session E: 1600 - 1645

E1: Smoke Signals: Understanding Capnography **Reagan Room**

Jacob Miller, DNP, MBA, ACNP, ENP-C, CNS, NRP, FAEN

Have you ever asked, "Why is my patient's EtCO₂ so abnormal?" This presentation breaks down what EtCO₂ measures to help you understand how patients' conditions can affect their EtCO₂ readings!

E2: The Fire's Out, Now What? Saving Lives Through Burn Education **Nixon Room**

Debbie Harrell, MSN, RN, NE-BC

Through current, evidence-based information, the EMS professional will discover proper acute care of the burn patient. The presentation will deliver case studies that highlight the role of EMS in the initial management of a burn patient.

E3: Recipe for Clinical Improvement: Reviewing the Key Concepts of Research, Evidence-Based Practice and Quality Improvement **Johnson Room**

Rebecca S. Lash, PhD, MPP, MSN, RN, CEN, CNL

Are you ever confused about research, evidence-based practice, and quality improvement? Come review common approaches to clinical improvement and the key elements of research, EBP and QI, and how to select the right method to answer ED clinical problems!

E4: Crew Resource Management **Eisenhower Room**

Eric Van Dusen, AAS, NRP, FP-C

History of CRM, communication styles and pitfalls, how to implement CRM for better communication and leadership.

E5: Are You Ready for A Disaster in Your ED: What Every RN Should Know About Emergency Preparedness **Ford Room**

Meg Morris, MSN, RN, CEN, TCRN

Learn what every nurse should know about identifying and treating mass trauma, chemical, and explosive events in the first two hours after a disaster.

Session E: 1600 - 1645

E6: Escape the Trauma Room

Truman Room

Lori Kelsheimer, BSN, RN, CEN & Katie Watson, BSN, RN

You and your team have been locked in the trauma room. You only have 30 minutes to breakout. Can you find the clues and solve the puzzles to Escape the Trauma Room?

Session F: 1700 - 1745

F1: I Had No Idea!!! Introducing Nursing Students to the World of EMS

Reagan Room

Paula Reiss, MSN, RN, FAEN & Bobbie Paquin-Reese, MSN, RN, NRP, PI

I had no idea!!!! This frequent nursing student feedback says it all! This session will describe our experience with integrating EMS providers and educators into a nursing clinical experience. We will share how we did and lessons learned!

F2: Five Hats Every Leader Must Wear

Nixon Room

Jeremey McKinney, BA, EMS-Paramedic, CADS, NREMT, AHA!

In this interactive Q and A session we share powerful leadership principles designed to help you engage your team and help them be successful.

F3: What the Research Says

Johnson Room

Michael Kaduce, MPS, NRP

Engaging providers on current hot button topics and trends in Emergency Medical Services. The course reviews recently published, peer reviewed literature to help breakdown some of the controversies EMS personnel will face both.

F4: Policy Roundtable Discussion (1630-1800)

Hoosier A-C Room

Various Indiana Lawmakers

A discussion with Indiana Lawmakers. No contact hours will be awarded for this discussion.

F5: New Grads in a New Era: How to Orient New Graduate Nurses in Emergency Nursing

Ford Room

Emily Green, MSN, RN, CEN & Stephanie Turi, MSN, RN, CNS

Hiring a large number of new graduate nurses into the ED setting presents new challenges that departments need to navigate to ensure novice nurses can practice safely. Our network has worked to develop education to support the new graduate nurse.

Mixer: 1800 – 2130

The Mixer will begin at 1800 (6:00 PM) on day one, Thursday, November 30, 2023. Entertainment and food will be served by 18:30 (6:00 PM). It will be held at American Legion Post 76 located at 8607 W Main St, French Lick, IN 47432. The event is a short 0.2 miles or 5 minutes walking distance from the conference hotel. Shuttles will be available at the French Lick Springs Hotel entrance to transport participants to the event.

December 1, 2023 - Friday

Plenary Session 2: 0900 - 1015

Ben Vernon, NRP

- Captain/Paramedic at San Diego City Fire Department

Session G: 1045 - 1130

- G1: Unusual Presentation** **Reagan Room**
Michele Glidden, MSN, RN, CEN, SCRN, ASC-BC
 Not every patient is easy to diagnose, this session will look at unusual presentations for those patients in the first moments of medical contact, either in the EMS or the ED setting.
- G2: Medical Aspects of Strangulation: What EMS and Nurses Need to Know** **Nixon Room**
Natalie Calow, MSN, RN, CEN, AFN-C & Barbra Bachmeier, JD, MSN, APRN, NP-C, DF-AFN, FAEN
 The strangulation training will include the pathophysiology of what occurs during strangulation, signs and symptoms of strangulation, clinical evaluation, management, and nursing/EMS care of a strangled patient.
- G3: Staff Education and Engagement On Shift** **Johnson Room**
Meg Morris, MSN, RN, CEN, TCRN
 To retain and educate staff, leaders must first engage. Discover practical ideas designed for on shift implementation that will meet your staff where they are today.
- G4: Paramedicine Specialty Certifications A Pathway To Career Advancement** **Eisenhower Room**
John Todaro, BA, RN, TNS, NCEE, CHSE, CHSOS, NRP
 This presentation will discuss the concepts of specialty certifications and certification stacking while exploring how specialty certifications can help build, support, and advance a career in paramedicine.
- G5: Trauma Chronicles: Leveraging Case Studies to Elevate Patient Quality** **Ford Room**
Scott Isenberg, MSN, RN, CEN, TCRN & Maria Thurston MSN, APRN, CNS, CCRN, TCRN
 Discover the power of trauma case studies in enhancing patient quality and learn practical strategies for their effective implementation.
- G6: Escape the Trauma Room** **Truman Room**
Lori Kelsheimer, BSN, RN, CEN & Katie Watson, BSN, RN
 You and your team have been locked in the trauma room. You only have 30 minutes to breakout. Can you find the clues and solve the puzzles to Escape the Trauma Room?

Session H: 1145 - 1230

- H1: Inhalation Injury in the Burn Patient** **Reagan Room**
Matthew S. Howard, DNP, RN, CEN, TCRN, CPEN, CPN, FAEN & Jason West, MSN, CRNA, NRP, CCRN, CCEMT-P
 Identifying and treating inhalation injuries in patients entering the emergency department via EMS is paramount. Understanding the normal and abnormal presentations of inhalation injuries secondary to burns or burn trauma enables healthcare providers.
- H2: A Unique Perspective on Dealing with Death** **Nixon Room**
Jon Snow, MS, D-ABMDI, NRP
 With a combination of case studies, pictures, stories, and best practices, this presentation will help to uncover what happens in the medical examiner's office as they investigate death.

Session H: 1145 - 1230

- H3: Supraglottic Airways** **Johnson Room**
Neil Boyce, MBA, RRT
Learn about the history and evolution of pre-hospital use of supraglottic airways.
- H4: Care Enough for Ourselves: Wellbeing for Healthcare Workers** **Eisenhower Room**
Kraig Kinney, JD, EMT-P
Well being of healthcare workers is a key factor in workforce retention. Where are we? How can we change the culture?
- H5: Pain Management in Pediatric Patients** **Ford Room**
Thomas Fentress, MBA, NRP, PI, CFI
The lecture will review pain management in pediatric patients. The lecture will review pain pathophysiology, recognition, and pediatric pain assessment. Treatment options include both pharmacological and non-pharmacologic interventions.
- H6: Escape the Trauma Room** **Truman Room**
Lori Kelsheimer, BSN, RN, CEN & Katie Watson, BSN, RN
You and your team have been locked in the trauma room. You only have 30 minutes to breakout. Can you find the clues and solve the puzzles to Escape the Trauma Room?

Session I: 1325 - 1410

- I1: Cardiac Emergencies or Up AMI Creek with Two Paddles** **Reagan Room**
Michael Smith, EMT-P, CCEMT-P, EMSI
Cardiovascular disease is one of the biggest causes of death in the United States, EMS is the first call for many cardiovascular syndromes complaints, We have to be able to differentiate between cardiac syndromes, mimics and life threatening conditions.
- I2: International Medical Volunteering, From Crazy to Amazing, in Less Than 45 Minutes** **Nixon Room**
Carla Ferretti-Hoover, BSN, RN, CEN
Volunteering in medical missions far away is much closer than expected. Here's the why, how, what, when and who, and the pictures to prove it.
- I3: The Violence is Real** **Johnson Room**
Tiffany Davis, MPH
This presentation will outline the public health approach to violence prevention and discuss programs that are working to reduce firearm-related injuries and deaths.
- I4: The Ups and Downs of Transport Medicine** **Eisenhower Room**
Jason West, MSN, CRNA, NRP, CCRN, CCEMT-P
Delve into the understanding of critical care transport pharmacology including sympatholytics, sympathomimetics and IV anesthetics.

Session I: 1325 - 1410

I5: MARCH To a New Beat: Initial Steps of Trauma Resuscitation **Ford Room**

Jacob Miller, DNP, MBA, ACNP, ENP-C, CNS, NRP, FAEN

The usual ABCD trauma survey misses key causes of early mortality! This presentation introduces the MARCH survey and describes life-saving interventions for resuscitation of a critical trauma patient.

I6: Escape the Trauma Room **Truman Room**

Lori Kelsheimer, BSN, RN, CEN & Katie Watson, BSN, RN

You and your team have been locked in the trauma room. You only have 30 minutes to breakout. Can you find the clues and solve the puzzles to Escape the Trauma Room?

Session J: 1425 - 1510

J1: Public Access Naloxone: Saving Lives or Rewarding Dangerous Behavior? **Reagan Room**

Michael Kaduce, MPS, NRP

Can anyone walk in to a pharmacy and receive naloxone? Should naloxone be as readily available as automated external defibrillators? Should law enforcement and first responders administer naloxone? Let's discuss these questions and more.

J2: Baby Free, Delivery Extra **Nixon Room**

Eric Van Dusen, AAS, NRP, FP-C

This presentation walks through many of the common obstetrical emergencies that may arise during a delivery. It will cover the initial assessment of an OB patient through delivery. Treatment options for those issues that we may encounter.

J3: It's All About Them Briefs', 'Bout Them Briefs, 'Bout Them Briefs, No Trouble **Johnson Room**

Trent Moser, BSN, RN

Poor communication continues to be a leading cause of error(s) to occur in trauma resuscitation. Affective interdisciplinary communication is a key fundamental to any successful trauma resuscitation. This presentation will provide you with briefing tools to help facilitate effective communication between all critical interdisciplinary team members to help mitigate preventable errors from occurring.

J4: Designing and Implementing Church Emergency Response Teams **Eisenhower Room**

Lee Turpen, NRP, CCEMT-P, PI

Churches are finding a need to develop internal response times to provide first response medical treatment and other emergency related services. Your EMS agency can help develop these programs.

J5: Wait – Kids Aren't Just Tiny Adults? Differences in Neonatal, Pediatric, and Adult Sepsis Presentation and Treatment **Ford Room**

Lauren Beauchamp, PharmD, BCPS

This session will compare neonatal and pediatric sepsis presentations to that of adults and highlight similarities and differences in medication therapy.

Session J: 1425 - 1510

J6: Escape the Trauma Room **Truman Room**
Lori Kelsheimer, BSN, RN, CEN & Katie Watson, BSN, RN
 You and your team have been locked in the trauma room. You only have 30 minutes to breakout. Can you find the clues and solve the puzzles to Escape the Trauma Room?

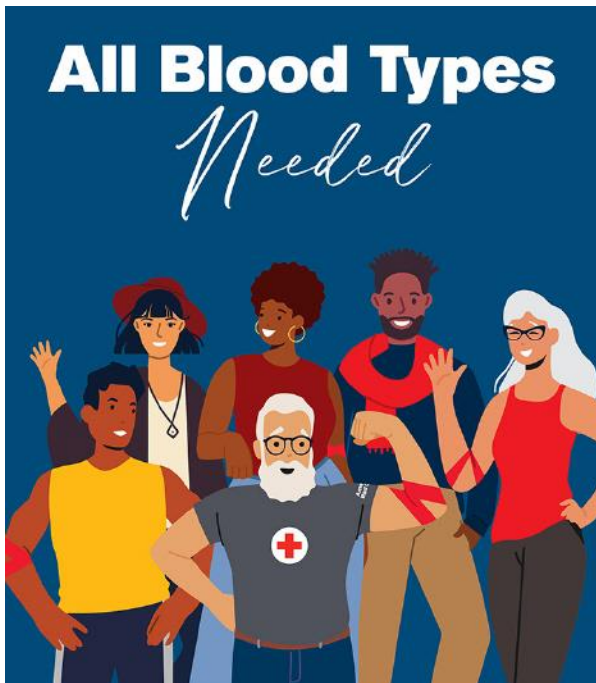

Session K: 1530 - 1615

K1: You're Getting A Call on the Radio for 8 Gunshot Victims That Turns Into 18 **Reagan Room**
Alex Hill, BSN, RN, CEN, TCRN, CFRN
 It is 1 am in your Trauma Center, and you receive a call about multiple GSWs entering the department. Learn about disaster triage and the events during a local mass casualty event.

K2: Aspire to Lead - A Guide to Servant Leadership **Nixon Room**
Thomas Fentress, MBA, NRP, PI, CFI
 What is Servant Leadership? Who do you become a Servant Leader? This lecture will help guide the audience into becoming more of a servant leader.

K3: Radical Collaboration: How Diversified Deployment of EMS Resources Can Revolutionize Your Community's Healthcare Ecosystem **Johnson Room**
Nathaniel Metz, EMT-P/CHW
 Learn from Phoenix's 12-plus years of experience in developing and operating innovatively designed community paramedicine programs into game-changing care initiatives.

K4: 5 S's for Sim-ply Leveling Up EMS Experiential Learning **Eisenhower Room**
Josee Harrell, BSN, RN, EMT-P
 Simulation: Leaping how we've always done it to how we can do even better. Utilizing 5 S's to level-up simulation design and delivery in EMS education and training.

- Medicount** An EMS Billing Company
- Penn Care** Penn Care is ready to assist with all emergency medical needs: EMS Supplies, Ambulance Sales, EKG Monitors, and Disaster Response Equipment.

Bronze Level Sponsors

- Phoenix Paramedic Solutions** Phoenix Paramedic Solutions was established in 2017, with the same mission that moves us today. Phoenix currently operates in a nine-county region in Northwest Indiana, headquartered in Lafayette. From our creation, we have concentrated on developing integrated care models through Community Paramedicine. Our first program predating the creation of Phoenix, started in 2014. Now we operate several Community Paramedicine programs across multiple counties. Our organization was founded with several core values, and they can be seen in everything we do. We believe that failure and adversity make some of the strongest foundations for a successful career. Creating an environment where staff can be free to pursue creative solutions for community problems creates an almost “university lab” feeling and has sparked a lot of careers that go beyond our organization. We believe in constantly moving forward and our organization is dedicated to the individual growth and development of everyone.
- Qsource** Qsource has nearly 50 years of experience working with healthcare providers, Medicare and Medicaid. Designated as a Quality Innovation Network-Quality Improvement Organization (QIN-QIO) for the state of Indiana, Qsource is contracted by the Centers for Medicare & Medicaid Services (CMS) to improve quality and achieve better outcomes in health and healthcare, at lower cost for nursing homes and other community-based providers of health care. Qsource currently operates in 11 states overseeing End Stage Renal Disease, External Quality Review, and QIO activities.
- Quality in Flow (QinFlow)** QinFlow has worked to develop and perfect a proprietary next-gen blood and fluid warming technology that delivers unparalleled levels of warming efficiency. The company’s flagship line of products – the Warrior – provides first response teams, critical care transport teams, and critical care professionals within various hospital settings with a high performance, simple to operate, and portable blood and IV fluid warming device that operates flawlessly throughout the entire continuum of care.
- Reid Health** Reid Health is a regional health system serving East-Central Indiana and West-Central Ohio, with a main hospital campus in Richmond, Ind., that includes a 221-bed inpatient hospital and 50 satellite locations in nine regional counties. The health system and its physician network, Reid Health Physician Associates, has more than 3,000 employees, including more than 200 providers in 88 specialties.
- seca** Choosing seca as your system solutions provider means choosing a global leader that brings your organization over 183 years of medical device and diagnostic expertise. Our comprehensive measuring and weighing solutions enable efficient workflow and faster diagnosis through precise data, integrated networks, intelligent software, and reliable services. Absolute precision, reliability, and longevity form the foundation for every seca product. In all our measuring and weighing solutions, we aim to make the routine procedure as simple and efficient as possible. We provide solutions for patients of all ages, states of health, and mobility levels. Moreover, our measuring systems and scales, backed by our direct EMR-validated integration solutions, offer abundant functions and details that make work easier and help ensure a zero-incident environment.
- Spirit EMS** Spirit EMS provides a wide variety of services to meet the needs of our patients and clients. We provide three levels of ambulance service, as well as wheelchair and ambulatory transportation. Our fleet consists of over 40 ambulances, fifteen wheelchair and ambulatory vans. Whatever your transportation needs may be, we are able to meet your demands. Why choose us? We care for our patients as if they are our family because we know that compassion means everything. It's really all about "Our Family Taking Care of Your Family".

Indiana Emergency Conference 2023

November 30, 2023 -
December 1, 2023

French Lick Springs Resort

Bronze Level Sponsors

- Supporting Heroes** Supporting Heroes responds to line-of-duty deaths of first responders in all of Indiana, Kentucky, and Missouri. We provide significant support to families and assist agencies as they also support the families, their personnel, and their communities.
- Teleflex** EZ-IO and QuikClot
